- Presentation of inductees to the President/Chairman of Council by the Chairman, RR & C Committee
- Oath Taking & Formal Admission into the Profession
- Response from one of the Inductees
- Closing of Induction Ceremony
- Group Photographs

OPENING REMARKS OF THE PRESIDENT/CHAIRMAN IN-COUNCIL, PROF CHARLES UWADIA, FNCS, AT THE INDUCTION OF NEW MEMBERS INTO THE INFORMATION TECHNOLOGY (IT) PROFESSION ON WEDNESDAY 26TH JUNE, 2019 AT NICON LUXURY, ABUJA

The Vice-President/Vice-Chairman of Council

President of **Nigeria Computer Society**

Registrar/Secretary to Council

Distinguished inductees

Ladies and Gentlemen

It is with utmost joy that I address you this morning on this occasion of your admission into one of the noblest professions, the Information Technology (IT) profession, as practitioners. I congratulate you on your being found fit and worthy, both in character and in learning/training to be part of this prestigious profession. It is my pleasure to welcome you to this year's induction ceremony where you will be exposed the more to the profession and what it offers with a view to preparing you for professional practice.

Given that you are new entrants into the burgeoning world of Information Technology (IT), I do not want to take anything for granted regarding your knowledge of the profession. I therefore would like to go through what the professional body that you are joining today, the **Computer Professionals (Registration Council of Nigeria)[CPN]**, is all about.

CPN was established by Act No 49 of 1993. The Act was passed into law on 10th of June and gazetted on the 9th of August that year. It is a regulatory body charged with the regulation, control and supervision of the computing profession and practice in Nigeria in line with Section 1 (2) of the Act, and is under the supervision of the **Federal Ministry of Education**.

The functions and responsibilities of CPN include, but is not limited to the following:

1. To determine the standards of knowledge and skills to be attained by persons

seeking to become members of the computing profession and improve those standards from time to time as circumstances may permit.

2. To secure, in accordance with the provision of the Act, the establishment and maintenance of a register of persons seeking to be registered under the Act to practice the computing profession and the publication from time to time of the list of such persons.

Consequently, the Council is responsible for the following among other things:

- a. Organization, control and supervision of computing practice in Nigeria
- b. Screening of individuals seeking to be registered to engage in the sale or use of computing facilities and the provision of professional services in computing in the country.
- c. Ensuring high computing professional Ethics and Standards.
- d. Creation and sustenance of local and international contacts for our numerous members,
- e. Reduced charges for some specific professional services and facilities.
- f. Determining academic standards in Computer Science, Computer Engineering and other related disciplines.
- g. Accreditation of institutions' courses and programmes as well as evaluation of certificates in computing.
- h. Conducting professional examination in computing (CPE).
- i. Opening of Regional Offices covering all the geo-political zones in Nigeria. Our offices presently exist in Abuja, Lagos, Ibadan, Owerri, Port-Harcourt, Gombe, Jos, Kaduna and Yola.
- j. Publication of the Register of Computer Professionals and other professional works like journals, books, magazines and newsletters.

Act 49 of 1993, earlier referred to, makes it mandatory for all persons and organizations seeking to engage, or already engaged, in the sale and/or use of computing facilities, and in the provision of professional services in computing or related computing machinery in Nigeria, to be registered by the Council and licensed to carry out such activities. **The Act makes it illegal to engage in computing**

and professional practice without satisfying the above condition -that is, registration and possession of a current valid license.

Consequently, persons and corporate bodies that are registered and hold current valid licenses, apart from being eligible to carry out their businesses, stand to enjoy several benefits including but not limited to:

- Elevated professional standing/status
- Protection from the public from exploitation and harassment in the course of performing bonafide and legitimate professional activities.
- Right to use the Council's insignia: individualized seal, crest, plaque, ties, clips and brooches
- Reduced rates for computing professional books, publications and events
- Access to and attendance at regular professional programmes like Conferences, Seminars, Symposia, Workshops and **Mandatory Continuing Professional Development programmes (MCPD)** for registered members of the profession.
- Facilitating of Local and International contacts with relevant associations and bodies abroad to facilitate the international mobility of our members
- Reduced charges for some specific professional services and facilities.
- Our registered members enjoy reciprocal registration with foreign Computer professional bodies abroad

One of the hallmarks of professionalism, especially in Information Technology (IT), is training and retraining, given the high obsolescence of Information Technology and the need to be updated on regular basis, It is therefore your responsibility to keep yourselves abreast of current developments in the industry if you are to remain competent, relevant and competitive. It is toward this end that the Council has put in place a platform for **Mandatory Continuing Professional Development Programmes (MCPD)** held at various locations at different times across the country. Your attendance of these **MCPD** trainings is a prerequisite for the renewal of license and upward mobility in the profession.

The Council places high premium on ethical conduct of professionals. We are conscious of the impacts which the use of computational machinery and related techniques have on the public, employers, clients and the professionals. This is what informed the

introduction of **Code of Ethics and Professional Conduct**. The document details the standards of conduct that are expected from professionals in the Information Technology industry, similar to what obtains in other professions. While Council will protect you in matters that infringe on your rights as members of this noble profession, I want to urge all of you to play your own role by conducting yourselves in the most ethical manner befitting of a professional in your daily activities.

I wish you the best as you start your induction programme hoping that you would have been better prepared to face the future at the end of the exercise. Distinguished ladies and gentlemen, let me conclude by reminding you that as you join the league of professionals in the IT industry, imbibing the virtues of honesty and integrity in your professional dealings remains the minimum expectation. This is key to your being worthy ambassadors of the IT practice everywhere you go.

I thank you for your attention, and I wish you a successful induction ceremony.

Professor Charles O. Uwadia FNCS
President/Chairman-in-Council

SPEECH OF THE CHAIRMAN, REGISTRATION, REGULATION AND CONTROL COMMITTEE, MR. 'ROGBA ADEOYE, FNCS, AT THE INDUCTION CEREMONY FOR THE NEWLY ADMITTED MEMBERS OF THE PROFESSION HELD ON WEDNESDAY 26th JUNE, 2019 AT NICON LUXURY HOTEL, ABUJA

The President/Chairman of Council

Vice-President/Vice-Chairman of Council

President of the **Nigerian Computer Society**

The Registrar/Secretary to Council

Distinguished members of the computing profession

The new inductees

Ladies and Gentlemen

It is with great joy that I address this gathering of distinguished professionals on the occasion of the induction of new members. Let me use this opportunity to congratulate you for the rare privilege of being inducted into the most dynamic profession in the world, Information Technology profession.

Information Technology (IT) profession is a discipline that cannot be ignored by any country. It is the revolution that is making waves in the world presently because of its capacity to change the lives of all and sundry in the world. Information Technology has become a tool for building a better life through the acquisition of knowledge and experience. It is also a weapon for participating in global markets, promoting political accountability, improving the delivery of basic services and enhancing local development opportunities. Information Technology has the potential of eradicating poverty and can assist tremendously in the achievement of the Sustainable Development Goals (SDGs).

As new inductees to this profession, the legitimization of your professional practice in Information Technology starts today and I will charge you to make good use of the

opportunity by channeling your energy and talents towards positive things that would be of benefit to you and your various organizations. The growth of the profession will impact positively on the nation and will facilitate the realization of the objectives of the Federal Government's Next level agenda. As professionals, we are duty bound to work towards the actualization of making this country a force to be reckoned with in Information Technology.

We look forward to popularizing Information Technology, increasing its penetration and improving the lives of our people by making them active participants in the Information Technology revolution. By virtue of your induction today, you have become part of the process for the total eradication of quackery and promotion of professionalism.

Let me inform you that we have a mechanism for sanctioning erring and recalcitrant members that go against the Code of Ethics of the IT profession in Nigeria. **CPN Disciplinary Panel** is the standing Committee that sits and deliberates on reported cases of unethical conduct by members. The Chairman of that panel is vested with power that is equivalent to that of a High Court judge. The implication of this is that the pronouncement of the panel can only be reviewed by the Court of Appeal.

I exhort each and every one of you present here to ensure that you contribute meaningfully to the development of the nation through Information Technology profession. Also, it behooves on you as new entrants into the profession to discharge your professional services with utmost dignity and honesty. Endeavour to be good ambassadors of the profession at all times.

It is my wish that you will be well guided in the course of discharging your professional services to the nation and humanity.

I thank you for your attention.

'Rogba Adeoye
Chairman, Registration, Regulation and Control Committee

OATH OF ALLEGIANCE TO THE INFORMATION TECHNOLOGY PROFESSION

I, _____do
solemnly affirm that I will be faithful and bear true allegiance to
the Information Technology Profession and that I will uphold and
abide by the provisions of the **Computer Professionals
(Registration Council of Nigeria)** Act No. 49 of 1993 [Cap C22
LFN 2004] and that I will abide by the code of conduct and any
other rules of the Council; and that I will strive to contribute
positively to the development of IT profession.

So help me God.

WatchOverMe App

A Personal Security Application That Manages & Respond To Emergencies

YOU ARE ABLE TO:

- SET-UP ALARMS TO MONITOR YOUR SAFETY AND THAT OF YOUR LOVED ONES.
- SET-UP TRUSTED CONTACTS THAT RECEIVE YOUR PANICS IN CASE OF EMERGENCY.
- RECEIVE PANIC ALERTS FROM YOUR LOVED ONES IN EMERGENCY, SHOWING THEIR LOCATION, HOSPITALS AND POLICE STATIONS AROUND THEM.
- MAKE CALLS TO YOUR LOVED ONE'S TRUSTED CONTACTS.
