

# COMPUTER PROFESSIONALS (REGISTRATION COUNCIL OF NIGERIA)

[Established by Act No. 49 of 1993]

# Induction of NEW MEMBERS

Thursday  
8th April, 2021

8.00am

NICON LUXURY HOTEL, ABUJA  
Plot 903, Tafawa Balewa Way,  
Garki Area II, Beside International  
Conference Centre, Abuja

Order of Proceedings ●●●

## National Anthem

Arise O Compatriots  
Nigeria's call obey  
To serve our fatherland  
With love and strength and faith  
The labour of our heroes past  
Shall never be in vain  
To serve with heart and might  
One nation bound in freedom  
Peace and Unity.

O God of creation  
Direct our noble cause  
Guide thou our leaders right  
Help our youths the truth to know  
In love and honesty to grow  
And living just and true  
Great lofty heights attain  
To build a National where peace  
And Justice reign

## National Pledge

I pledge to Nigeria my country  
To be faithful, loyal and honest  
To serve Nigeria with all my strength  
To defend her unity  
And uphold her honour and glory  
So help me God

Induction  
of NEW  
MEMBERS

  - Oath Taking & Formal Admission into the Profession
  - Response from Representative of the Inductees
  - Closing of Induction Ceremony
  - Group Photographs (Physical)/Online Capture
-

## OPENING REMARKS OF THE PRESIDENT/CHAIRMAN OF COUNCIL, PROF CHARLES O. UWADIA , FNCS, AT THE INDUCTION OF NEW MEMBERS INTO THE INFORMATION TECHNOLOGY (IT) PROFESSION ON THURSDAY 8TH APRIL, 2021 AT NICON LUXURY, ABUJA

The Vice-President/Vice-Chairman of Council

President of **Nigeria Computer Society**

**Provost, College of Fellows**

Registrar/Secretary to Council

Fellows and Elders of the profession

Distinguished inductees

Ladies and Gentlemen

It is with utmost joy that I address you this morning on this occasion of your admission into one of the noblest professions, the Information Technology (IT) profession, as practitioners. I congratulate you on your being found fit and worthy, both in character and in learning to be so admitted to the IT profession. At this induction ceremony, you will be exposed the more to the profession and what it offers with a view to preparing you to practice as it should be.

Given that you are new entrants into the very dynamic world of Information Technology (IT), it is pertinent to provide a brief about the **Computer Professionals (Registration Council of Nigeria)**, the apex regulatory body for the practice of Information Technology (IT) in Nigeria.

CPN was established by Act No 49 of 1993. The Act was passed into law on 10<sup>th</sup> of June and gazetted on the 9<sup>th</sup> of August that year. It is a regulatory body charged with the regulation, control and supervision of the computing profession and practice in Nigeria in line with Section 1 (2) of the Act, and is under the supervision of the **Federal Ministry of Education**.

The functions and responsibilities of CPN include, but are not limited to the following:

1. To determine the standards of knowledge and skills to be attained by persons seeking to become members of the computing profession and improve those standards from time to time as circumstances may permit.
2. To secure, in accordance with the provision of the Act, the establishment and maintenance of a register of persons seeking to be registered under the Act to practice the computing profession and the publication from time to time of the list of such persons.

Consequently, the Council is responsible for the following among other things:

- a. Organization, control and supervision of computing practice in Nigeria
- b. Screening of individuals seeking to be registered to engage in the sale or use of computing facilities and the provision of professional services in computing in the country.
- c. Ensuring high computing professional Ethics and Standards.
- d. Creation and sustenance of local and international contacts for our members,
- e. Reduced charges for some specific professional services and facilities.
- f. Determining academic standards in Computer Science, Computer Engineering and other related disciplines.
- g. Accreditation of institutions' courses and programmes as well as evaluation of certificates in computing.
- h. Conducting professional examinations in computing.
- i. Opening of Regional Offices covering all the geo-political zones in Nigeria. Our offices presently exist in Abuja, Lagos, Ibadan, Owerri, Port-Harcourt, Gombe, Jos, Kaduna and Yola.
- j. Publication of the Register of Computer Professionals and other professional works like journals, books, magazines and newsletters.

Act 49 of 1993, earlier referred to, makes it mandatory for all persons and organizations seeking to engage, or already engaged, in the sale and/or use of computing facilities, and in the provision of professional services in computing or related computing machinery in Nigeria, to be registered by the Council and licensed

to carry out such activities. **The Act makes it illegal to engage in computing and professional practice without satisfying the aforementioned condition - that is, registration and possession of a current valid license.**

Consequently, persons and corporate bodies that are registered and hold current valid licenses, apart from being eligible to carry out their businesses, stand to enjoy several benefits including but not limited to:

- Elevated professional standing/status
- Protection from the public from exploitation and harassment in the course of performing bonafide and legitimate professional activities.
- Right to use the Council's insignia: individualized seal, crest, plaque, ties, clips and brooches
- Reduced rates for computing professional books, publications and events
- Access to and attendance at regular professional programmes like Conferences, Seminars, Symposia, Workshops and **Mandatory Continuing Professional Development programmes (MCPD)** for registered members of the profession.
- Facilitating local and International contacts with relevant associations and bodies abroad to ensure the international mobility of our members
- Reduced charges for some specific professional services and facilities.
- Our registered members enjoy reciprocal registration with foreign Computer professional bodies abroad

One of the hallmarks of professionalism, especially in Information Technology (IT), is training and retraining, given the high rate of obsolescence of Information Technology and the need to be updated on regular basis; it is therefore your responsibility to keep abreast of current developments in the industry if you are to remain competent and competitive. It is toward this end that the Council has put in place a platform for **Mandatory Continuing Professional Development Programmes (MCPD)** held at various locations at different times across the country. Your attendance of these MCPD trainings is a prerequisite for the renewal of license and upward mobility in the profession.

Further, we are conscious of the impact of the use of computational machinery and related techniques on the public - employers, clients and the professionals. This is what informed the introduction of the **Code of Ethics and Professional Conduct** that details the standards of conduct expected from professionals in the IT industry, as it exists in older professions such as Law, Medicine, Architecture and Pharmacy. The Council's minimum expectation of you as ambassadors of the IT profession is high moral standards and good ethical conduct. As provided in the Act that established CPN, the Code of Ethics and Professional Conduct is enforceable, and as a matter of fact, continued membership of the profession depends on strict adherence to it. I enjoy you therefore to endeavour to be good ambassadors of this profession and tread the path of honour and integrity at all times.

Please be informed that Council has a mechanism. Let me inform you that we have a mechanism for sanctioning erring members that go against the Code of Ethics. A disciplinary panel is constituted to try reported cases of unethical conduct by members. The Chairman of that panel is vested with a power that is equivalent to that of a High Court judge. The implication of this is that the pronouncement of the panel can only be reviewed by the Court of Appeal.

In closing, as you join the league of professionals in the IT industry, you must resolve to imbibe and exhibit the virtues of honesty and integrity in your professional dealings. It is only by doing this that you can be a model worthy of emulation by members and non-members of the profession.

Thank you for your attention, I wish you a wonderful induction ceremony.

Professor Charles O. Uwadia FNCS  
**President/Chairman of Council**

## **SPEECH OF THE CHAIRMAN, REGISTRATION, REGULATION AND CONTROL COMMITTEE, PROF ADESINA SIMON SODIYA AT THE INDUCTION CEREMONY FOR THE NEWLY ADMITTED MEMBERS OF THE PROFESSION HELD ON THURSDAY 8TH APRIL, 2021 AT THE NICON LUXURY HOTEL, ABUJA**

The President/Chairman of Council

Vice-President/Vice-Chairman of Council

President of the **Nigerian Computer Society**

The Registrar/Secretary to Council

Distinguished members of the computing profession

The new inductees

Ladies and Gentlemen

I feel honoured to address this gathering of distinguished professionals on the occasion of the induction of new members into the IT profession. I want to use this opportunity to congratulate you for the rare privilege of being counted worthy, both in learning and in character to be inducted into the most dynamic profession in the world, Information Technology profession.

Information Technology (IT) profession is a discipline that cannot be ignored by any country. It is the revolution that is making waves in the world presently because of its capacity to change the lives of all and sundry in the world. Information Technology has become a tool for building a better life through the acquisition of knowledge and experience. It is also a weapon for participating in global markets, promoting political accountability, improving the delivery of basic services and enhancing local development opportunities. Information Technology has the potential of eradicating poverty and can assist tremendously in the achievement of the Sustainable Development Goals (SDGs).

As new inductees to this profession, the legitimization of your professional practice in Information Technology starts today and I will charge you to make good use of the opportunity by channeling your energy and talents towards positive things that would be of benefit to you and your various organizations. The growth of the profession will impact positively on the nation and will facilitate the realization of the objectives of the Federal Government's Next level agenda. As professionals, we are duty bound to work towards the actualization of making this country a force to be reckoned with in Information Technology.

We look forward to popularizing Information Technology, increasing its penetration and improving the lives of our people by making them active participants in the Information Technology revolution. By virtue of your induction today, you have become part of the process for the total eradication of quackery and promotion of professionalism.

Please be informed that there is a mechanism for sanctioning erring and recalcitrant members that go against the Code of Ethics of the IT profession in Nigeria. **CPN Disciplinary Panel** is the standing Committee that sits and deliberates on reported cases of unethical conduct by members. The Chairman of that panel is vested with power that is equivalent to that of a High Court judge. The implication of this is that the pronouncement of the panel can only be reviewed by the Court of Appeal.

I challenge each and every one of you present here to ensure that you contribute meaningfully to the development of the nation through Information Technology profession. Also, it behooves on you as new entrants into the profession to discharge your professional services with utmost dignity and honesty. Endeavour to be good ambassadors of the profession at all times.

It is my wish that you will be well guided in the course of discharging your professional services to the nation and humanity.

I thank you for your attention.

Prof Adesina Simon Sodiya

**Chairman, Registration, Regulation and Control Committee**

## OATH OF ALLEGIANCE TO THE INFORMATION TECHNOLOGY PROFESSION

I, \_\_\_\_\_ do  
solemnly affirm that I will be faithful and bear true allegiance to  
the Information Technology Profession and that I will uphold and  
abide by the provisions of the **Computer Professionals  
(Registration Council of Nigeria)** Act No. 49 of 1993 [Cap C22  
LFN 2004] and that I will abide by the code of conduct and any  
other rules of the Council; and that I will strive to contribute  
positively to the development of IT profession.

**So help me God.**
